"Winter Wonderland" Ball Features Music Of Mickey Isley

With Christmas time almost here and the dreams of children throughout the world turning to Santa Claus and all his toys, so is the dream of every Calumet Center student directed to the annual Christmas ball Saturday night, December 22, from 8 to 12 p.m.

"Winter Wonderland," the theme of this year's romantic and scenic ball, will be held for the first time in the new Armory at 2530 - 173rd Street in an envelope of Christmas spirit.

Mickey Isley and his ten-piece orchestra will provide the dreamy music for this "night to remember."

A hundred letters have already been sent out to former Calumet Center students and their response for tickets have been overwhelming.

Special mention should be directed to committee men, who include Bob Foster and Margy Meek, decorations; Bernie Wontorek, cleanup; Vince Pongracz, tickets; Joe Stodola and Phil Szepeich, publicity; Shirley Ralph, refreshment; Rich Okray, Christmas tree; Bob Svetovich, pictures; Ken Ashley, coat room; and John Stier, chaperones.

Tickets are only \$3.00 a couple; so grab your best suit, fellow, and your prettiest formal, girls, and dance in fairyland's Winter Wonderland.

Refreshments are free, too!

Practical Nurses To Begin Their Hospital Training

The year 1956 is coming to an end, and on January 7th, class number seven will be continuing its training in the various hospitals. When they leave they will leave remembering the wonderful instructors, the funny experiences and the long hours of studying.

In the Family Living class they studied about the importance of nutrition. They learned to prepare special diets. Many even gained a few pounds from the delicious meals they prepared in the Family Living kitchen.

Nursing Arts provided a lot of activity among students. In the ten-bed laboratory they learned to make beds, to give baths, to prepare patients for surgery, to bandage, to give first aid and to do the many other things necessary for good bedside care. They were fortunate in being able to practice on a manikin called Mrs. Chase, especially made for the training of doctors and nurses. One day will stand out in all their minds. After practicing on Mrs. Chase, each student gave each other a hypodermic injection. This was the first but not the last giving of injections for these future nurses.

Their class in Body Structure was interesting to all the students. They learned the names of the bones of the human skeleton and the functioning of all the organs of the body. Everyone was amazed to see all the activity that took place in the human body every day of one's life.

The students also had classes in Personal Hygiene and Professional and Vocational Ethics.

In November, the class took a field trip to The Norman Beatty Memorial Hospital in Westville, Indiana. They also visited Porter School to see the care of the crippled.

(Continued on Page Three)

Date--December 21 Time--Early Evening

Narrator--Jim Hoffman

Ah, here it is again, the reason of Yuletide spirit—shoppers battling for last-minute gifts, children looking for their biggest stockings to hang out on Christmas Eve, young males bashfully browsing between lingerie counters looking for gifts for their sweethearts, PUCC instructors fiendishly dreaming up difficult questions for the not-too-far-off final exams, and worried students hopefully mailing Christmas cards to their various instructors, praying that it might help. All these things make up the Christmas season.

At home Mom and Sis are baking Christmas cookies — Mom bakes them while Sis eats them. Dad and Brother are trimming the tree—while Dad hangs the star on top, Brother rambunctiously crawls under the tree to see if it has enough water. The dog and I sit quietly on the sidelines, eating dog biscuits and drinking eggnog — straight.

The television is on and all the networks are playing Christmas carols—Spike Jones and his Firehouse Five are beautifully mutilating "White Christmas." Two Caruso's with the names Homer and Jethro are crooning "I Saw Mommy Smoochin' Santa Claus," some Chinaman is sweetly singing "Yingle Bells," and Liberace, with bells on his toes, is gently playing "All I Want for Christmas Is A New Candelabra." Every once-in-awhile (about every five minutes) the man with the beautiful voice, Marty Faye, tries to persuade anyone silly enough to listen to buy last year's Christmas trees at only half-price. Along with the tree he'll give you a brand new, full-grown, fully-trained, flea circus.

Say, if you're feeling thirsty, why don't you drop around? I just bought a bottle of five-year old and we can get lit up like Christmas trees (five-year old apple cider, that is).

HAPPY NEW YEAR

Miss Maginsky Takes Award For Article

At the 1956 Annual meeting of the Indiana State Nurses' Association, Miss Mary Maginsky, director of the Practical Nurse Program here, was awarded a journalism prize for an article which appeared in the April, 1956, issue of *Practical Nursing*. Miss Maginsky received a silver key in recognition of the excellence of her illustrated article "The Practical Nurse Looks at Her Eyes."

The award is one of three made annually by the ISNA for articles appearing in magazines with national circulation.

Miss Maginsky's article emphasizes the sympathy which the nurse must feel for the eye patient, and it goes on to discuss the anatomy of the eye, visual defects, injuries and diseases of the eye, and nursing care of eye patients.

A graduate of St. Francis Hospital School of Nursing in Evanston, Illinois, Miss Maginsky received a B.S. degree from St. Xavier College, Chicago, and a B.S. in Nursing Education from Loyola University. She has acted as director of the Practical Nurse Training Program here since June, 1954.

Jim Hoffman, Boilermaker reporter, surveys new Armory.

Professor Comings Lectures at Center

Professor E. W. Comings, the head of the School of Chemical and Metallurgical Engineering at Purdue, gave an interesting lecture to the students here at Purdue University Calumet Center on Monday, November 26. In his lecture Professor Comings discussed the curriculum of the School of Chemical Engineering and also discussed some curriculum changes which will be made in the near future. Toward the end of his lecture, Professor Comings made a very interesting distinction between scientists and engineers. In making this distinction he said, "If a scientist gets a problem he can't do, he will go out to find a new problem; but if an engineer gets a problem he can't do, he has to do it anyhow." Immediately following the lecture, Professor Comings answered many interesting questions which were put to him by the students who attended the lecture.

Many Problems Hit Guidance Center at PUCC

The Guidance Clinic, in cooperation with the faculty, has surveyed student "smoke-ups." "Smoke-ups" are the yellow slips students receive for unsatisfactory work. Dr. Kir-Stimon, Director of the Guidance Clinic, says, "A good proportion of failures can be avoided by counseling. Many of these are occasioned by the student's being in the wrong field. Many are brought on by poor study habits or other temporary situations which can be ameliorated by adequate attention."

All students who have received smoke-ups are strongly advised to see their department faculty advisor, who can help them determine the cause of their trouble.

The assistance of the Guidance Clinic will be available to those students who seek additional help either in selecting a suitable career or in ascertaining their abilities.

In addition to counseling Purdue students, the Guidance Center has been working with high-school students, and with adults not connected with PUCC. Among the problems encountered are those of people in the TI program who are advised to enroll in the college program, those of high-school seniors who require pre-college counseling, and those of children with unrecognized problems of color blindness, visual acuity, and other possible impairments, who have been referred for medical advice. The Clinic has also tested all applicants for the Practical Nurse Training Program in order to help Miss Maginsky select students capable of handling the PU program.

Armory Completed At Long, Long Last

The long-awaited opening of the Armory has taken place at last. The finishing touches were applied on Thursday, December 6, and it was then locked up to await the arrival of the inspector on Wednesday, December 19. Upon his approval, the armory is officially opened. Our thanks to Coach Hayes who hounded the workers daily in order to get our basketball team in the Armory as quickly as possible.

The Armory will be used by the Indiana National Guard as well as by the students of P.U.C.C. - We will use it for basketball games, basketball practice, P.E.M. classes, and dances. By the way, the annual Christmas semi-formal dance will be held in the Armory Saturday night, December 22. It will be the first dance in the Armory, and we hope it will be a successful one.

Well, we'll see y'all in the Armory.

Students Will Tour Standard Oil Co.

On January 2, 3, 28, and 29 about 160 PUCC students will tour Standard Oil Co. Forty students are permitted to go each tour. The trip starts at the plant Research Building, 2500 New York Ave., Whiting, at 9:00 a.m. Students will tour the plant in the morning and then will be guests of Standard Oil for lunch. After lunch they will tour the Research Lab till about 3:30 p.m.

Students wishing to take the tour must sign for one of the above dates. Reservations may be traded later if the date signed for is found to be inconvenient. Please sign only one of the sheets, provided for each date.

Hurry! Only 40 can go each date. Register with any Chemistry instructor.

REPORTERS WIN BY-LINES

The Boilermaker is still in the process of staff organization although things are fairly under control now. We still need a few reporters, both men and women, to cover interesting and informative events. This issue of the paper has awarded its first by-lines for distinguished service. Ken Ashley, Geza Cseri, and Jim Hoffman are the recipients of the by-lines. It takes more than just writing an article or two to receive a by-line. It takes hard work. Be sure to check future publications for by-line awards.

Christmas Assembly Offers Colorful Hour Program

The Annual Christmas Assembly will be held in the Student Lounge at 10 a.m., Friday, December 21. Bob Foster, chairman of the event, announces the following program:

Christmas carols—group singing led by Joe Stodola.

"All I Want for Christmas"—a skit by Ken Ashley, Richard Okray, Bob Svetovich, and Tony Kaczmarczyk.

Christmas folk songs—Mary L. Wilson, accompanied by Dr. Ralph B. Fearing.

Accordion solo — LaVerne Landwehr.

Girls' Sextet.

"The Meaning of Christmas"—Rev. Allan Byrne.

Benediction.

Classes will be dismissed at 10 o'clock for the hour-long program. It is hoped that the Assembly will be as well attended as its varied and meaningful program deserves to be. The Student Council rates Season's Greetings for this effort to give the Holiday so colorful a beginning.

Student Court Being Set Up

A new institution is being planned for the Calumet Center. A student court similar to the one at Purdue Campus is in the last stages of preparation.

Since the Extension is growing larger every year, the administration feels that traffic will become a major problem. If the present plan is approved by the faculty and the campus, tickets will be given for traffic violations. The court will be exclusively for appeals of these tickets. It will convene periodically, but the time will alternate for the convenience of day and evening students.

The six judges in the court will be selected by the student council from any Center student, male or female, full or part time; college, Nursing, or Technical Institute. The only requisite is that they are approved by the faculty. Two faculty advisors have already been appointed. They are Dr. Russell T. Bowser and Dr. Henry Sharp. Each has had experience as attorney.

Pointed for Purdue

DECEMBER

- 21—Last school day this year (hooray). Except for those who have Saturday classes.
- 22—"Christmas Ball" in the new armory (don't miss it).
- 25—Merry Christmas.
- 31—New Year's Eve.

JANUARY

- 1—Happy New Year
- 2, 3—Tour of Standard Oil (free lunch)
- 7—Classes resume (only 15 days more)
- 11—Basketball—Cook County Hospital (H)
- 14 or 21—Lecture—C. F. Kossack, Head of Math. Dept.
- 17—Basketball—Joliet (T)
- 19—Basketball—Ball State Freshmen (T)
- 25—Last school day of semester
- Basketball—Thornton J. C. (H)
- 28, 29—Tour of Standard Oil

Wanted: School Spirit

Attention to all students who do not know that Purdue University Calumet Center has a basketball team. Purdue's team has already played four games this season, and the total attendance for those three games has not exceeded one hundred people. What is the matter with the students here at Purdue? Have they no school spirit? With over a thousand students enrolled at this center, we should have at least two hundred students attending each game, but we don't.

School spirit is a very powerful and important thing for any school to have. With it a school can be sure that any activity started will be a success, but without it, one can be assured almost any activity will be mediocre or else a complete failure.

Here at Purdue University Calumet Center we have a rather indifferent group of students. They don't seem to care much about anything that's going on. If the faculty arranges for a lecture to be given, very few students attend. If the student council arranges some social event, several students show up, but not early enough. If the basketball team has a game, again, just a few students show up. Every student here at Purdue should realize what a powerful force school spirit is. Let us use a sports event as an example: A school without spirit can have a sound basketball team and still end up with a mediocre record. Another school with a poor team, but with plenty of backing, can end up with a pretty decent record. You may wonder how that is possible. It is very simple to explain. When a player is out there and he hears the crowd cheering, he'll play over his head to make a good showing; but if there are ten or twenty people out there, he'll figure, what's the use? No one cares whether we win or lose. Of course, this is not the right attitude for a player to have, but one really can't blame him.

From now on try to remember how powerful school spirit can be. If the student council plans a dance, attend it. If the basketball team has a game, go out there and back the team; and, if the faculty arranges a lecture, be sure to go; and, if we do all this, we will have school spirit and everything this Center undertakes will be a success.

Beef 'n' Corn

By Ken Ashley

"Never the twains shall meet," sighed the little boy as the brakeman pulled the switch. (Now you know where we get the name for this column.)

* * *

Two little German boys were walking through the mountains with their mother when the mother suddenly jumped off a cliff. One boy then chortled to the other, "Look, Hans, no Ma."

* * *

"What are the passengers looking out the windows for?" asked a nervous lady, as the conductor came through the train.

"We just ran over a cat," said the conductor.

"Was the cat on the track?" she asked next.

"Oh, no, ma'm," assured the conductor, "the locomotive chased him up an alley."

* * *

Satch Okray (in a restaurant)—
"Do you serve fish here?"
Waiter—"Sit down; we serve anybody."

* * *

Carl Oliver—"Is your cold any better?"

Sharon Haley—"No, it isn't."

Carl—"Did you drink the orange juice after a hot bath?"

Sharon—"After drinking the hot bath, I couldn't get the orange juice down."

* * *

She sat down by the sewer,
By the sewer she died.
At the coroner's inquest,
They called it sewerside.
(Man, these are gettin' deep.)

* * *

This one is dedicated to P.U.C.C.'s pinocle players:

"Why didn't they play cards on Noah's ark?"

"Because Noah sat on the deck."

LETTER TO THE CAMPUS

Dear Judy,

This has been a very eventful week here at PUCC. There were two engagements within a few days of each other. The first was that of Ola Smith, one of the girls in the Technical Institute. She received a lovely pearl ring from Wilson, a basketball player on campus. The other was Suzanne Peterson, a freshman. Her fiancé is John Callahan, who is attending URC. Also in that same vein, Carolyn Terry and Vic Hoffman are finally going steady.

Thursday morning Ola arrived at school sporting a large white bandage on her forehead. Come to find out, she had been hit with a pop bottle while walking home. She is doing fine now, though.

Since it is that time of year, all the girls at school decided to exchange names. The idea grew and grew until it developed into a combination Christmas and slumber party. Delcy Magoudis was good enough to donate her house for the occasion.

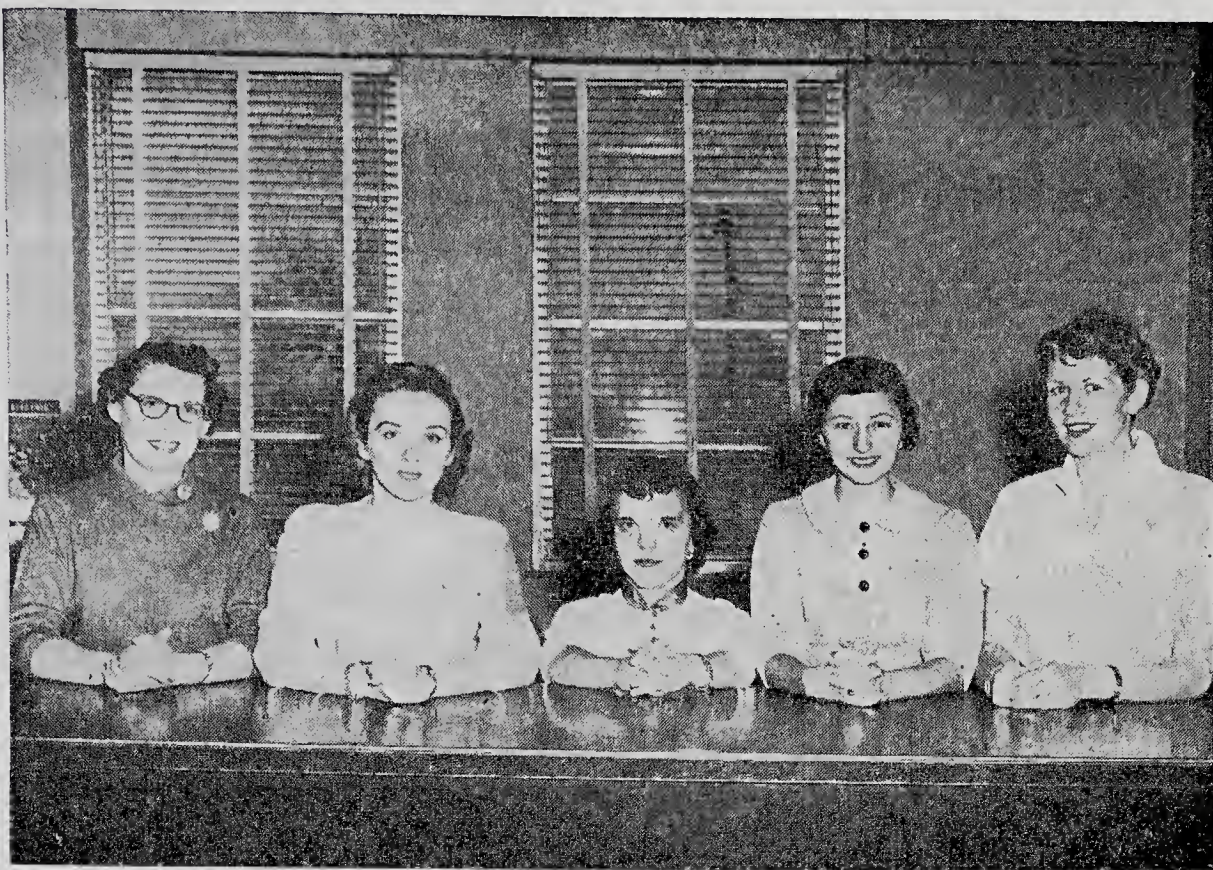

Saturday, the twenty-second, Purdue is having their annual Christmas formal. We are making decorations and looking forward to it very eagerly. This will be the first big dance for us freshmen.

Friday, December 7, was Marjy Meek's birthday, so we girls decided to give her a party. We all donated money and bought her a cake, complete with twenty pink candles. After singing Happy Birthday seven times, we enjoyed the entertainment, which consisted of Christmas carols sung by all.

I've got to scoot off to class now, but will write more next time. Bye for now.

Love,

Betty

Left to right: Mrs. DeVries, Miss Stahlhut, Miss Ohlenkamp, Miss Fisher, and Miss Venske.

Busy, Attractive Office Girls Take a Bow

Did you know that there are five overworked young ladies on the Center's permanent staff? These girls make up the PUCC office force. Their jobs are many and their praises few, and without them, whom could we blame when things go wrong? They are the unsung heroines of our school and should be shown every possible consideration for a job well done.

Mrs. Audrey DeVries, secretary to the Director and supervisor of the office girls, has been with the school for ten years. She was graduated from Griffith High School and Hartnett Business College. Mrs. DeVries lives in Munster with her husband, who is a salesman for the Hydrox Corporation. She likes to bake, cook, travel, and take care of her little yellow house.

Another of our charming girls is Miss Lois Stahlhut, the secretary to the Registrar. Miss Stahlhut attended Morton Jr. High School, but was graduated from Hammond High. She likes to travel, dance, and go horesback riding. She is an avid football and basketball fan and a member of Chi Delta Phi. Miss Stahlhut is the young lady who collects our money for parking offenses.

Beverly Venske, who works for Miss Maginsky, has a unique routine. Miss Venske does everything from secretarial duties to washing dishes and modeling for nursing advertisements. She was graduated from Hammond Tech and is engaged to Robert Brumm, an employee of West Shore Transport.

Joan Fisher, another vivacious young lady, is secretary to Dr. Kir-Stimon. She says her hobby is collecting boy friends, and I don't imagine she has much trouble. She is a graduate of Thornton High School and has been employed at Purdue since last March.

Miss Janet Ohlenkamp, our switchboard operator and typist, is the young lady to whom one goes for information. I've heard that she plays the piano and organ quite well. Miss Ohlenkamp is a graduate of Grant Park School, Grant Park, Illinois, and is now attending comptometry classes at Hammond Business College.

Keep up the good work, girls. Your efforts are appreciated.

Hear PUCC News

Every Friday between 12:25 and 12:30 p.m. on WJOB, Dave Cole and John Hammond report on sports, social activities, new courses, and lectures at PUCC. Purdue has been represented on WJOB for about six months, and the purpose of the program is to put Calumet Campus in the minds of the public.

Around the World

By Geza Cseri
HUNGARY

For more than six weeks the eyes of the world have been fixed on the Central European country of Hungary. In this article I do not want to write about the existing situation because you can read about it in the daily newspapers, but I intend to give general information about the country.

"Magyarország" lies in the Carpathian Basin. Hungary is bordered by Czechoslovakia and Russia on the north, by Rumania on the east, by Yugoslavia on the south, and by Austria on the west.

The area is 34,000 square miles, and the population 10,000,000. There are only four cities of over 100,000 inhabitants. The major cities are Budapest (70 per cent of it was destroyed by World War II), with a population of 1,700,000; Szeged 140,000; Debrecen (the "Rome" of Protestantism), 130,000; Miskolc, 120,000; Kecskemet, 90,000; Pecs, 75,000; and Győr, 60,000.

Hungary is a lowland, especially in the area between the Danube and the Tisza Rivers. The latter region is called "Alfold." There are, however, a few mountains in the country, such as Mátra, the Bakony, and the Mecsek (the uranium

mines are here).

Before the war, Hungary, as Poland, was mostly an agrarian country; but today, with the Communists' industrialization, it has neither become an industrial nation nor remained an agricultural land. Hungary's economy has been destroyed.

Hungary has some important resources, such as oil, coal, uranium, and bauxite (30 per cent of the world deposit). Before the war, the chief industrial products were textiles, machinery, processed foods, and chemicals.

In agriculture the most important products were wheat, maize, livestock, wine (Tokaj), potatoes, and rye.

Hungary was founded in 876 under the leadership of Arpad, St. Stephen, first king of Hungary, completed the Magyars' Christianization in the early part of the 11th century. A feudal society came into being, but the power of the magnates was curbed by the Golden Bull of Andrew II (1222). In 1241, the country was invaded, for the first time, by the Tartars. The Arpad dynasty died out in 1301, and the crown became elective.

Medieval Hungary reached its zenith under Louis I (the Great) and under Matthias Corvinus. The latter was the son of Janos Hunyadi, who defeated the Turks at

SHARON HALEY

One of the most charming young ladies enrolled at P.U.C.C. this semester is Miss Sharon Haley. Her auburn hair and misty gray eyes make her easy to look at. She was born here in Indiana but has traveled extensively in the West and has lived in Idaho, California, and Washington. A graduate of Longview Washington High School, Miss Haley plans to major in Speech Therapy. She likes flying more than any other activity and is now working toward her private license. She also likes boating, fishing, swimming, and camping. Dancing and listening to classical music are a few more of her pastimes. Miss Haley intends to travel the world, so if you want any foreign postcards, leave your name and address with her.

Her pet peeve is people who do not reply when greeted in the hall. Miss Haley, an active member of the Boilermaker staff, is truly a morale builder here at the center.

HOSEA GIVAN

Although our basketball team is nothing to boast about, yet this year, one of its most enthusiastic members is Hosea Givan. He is twenty years old and was born and reared in Gary. He attended Gary Roosevelt High School where he was an active participant in all sports. His favorite is football, but he also likes swimming, basketball, baseball, and tennis.

He enjoys music very much and has made collecting records a hobby. His favorite kinds are rhythm and blues, and pops. Hosea is also fond of traveling. Three years ago he spent the summer touring the west. In his opinion, the most interesting places were the state of New Mexico and Colorado Springs. Even though the West presented many beautiful sights, he would like to make his home in the Calumet area.

Hosea is attending college full time and plans to major in Electrical Engineering. He works at Youngstown Sheet and Tube where he is employed as an assistant foreman.

When asked about the basketball situation, he replied that the solution to winning a few games is teamwork and practice. He is certain that there will be a great change once the armory is completed. When Hosea goes down to the campus in September, his loss will be deeply felt by his teammates.

Test Results Analyzed

The rattle of the calculator in the Guidance Clinic has been caused by Mr. Dratwa, who has been analyzing test results for his psychology class.

Ten Field Trips Add Interest to Materials And Practices Course

One of the most interesting and educational courses offered in the school of technology is a course known as Materials and Processes. Professor F. F. Schlosser is teaching the course.

During the first half of the semester most of the ferrous and non-ferrous metals, including plastics,

are studied. These studies consist of heat treatment of materials, metallurgy of materials, and some strength of materials.

Perhaps this doesn't sound very interesting to you. The one factor that makes this course so interesting is the ten field trips included in the course of study. When steel making is being studied, a trip is taken to a plastics manufacturer. Other field trips are: Standard Oil, a machine shop, a cement plant, a foundry, a magnesium works, and an aluminum plant.

P.U.C.C. Loses Fourth Straight

By Ken Ashley

Purdue's trip to Elgin Tuesday, December 4, was fruitless. We picked up our fourth straight loss by a score of 79-58. The first half was nip-and-tuck until the waning moments of the half when Elgin built up an eight point lead. The Elgin boys really got hot the second half and made a runaway of the game. The Boilermakers' lack of practice again showed clearly when we repeatedly missed easy shots: Here's hoping that better practice conditions when the Armory is opened will result in a better showing of our team. The game's high scorer was Buckner of Elgin, who tallied 33 points. Ken Ashley led the Boilermaker scoring with 15, followed by Chuck Jonas with 12, and Chuck Lannin with 10.

Box Score:

P.U.C.C. (58)	b.	f.t.	t.p.	f.
Lannin, f	2	6	10	0
Miller, f	0	1	1	0
Rector, f, g	2	3	7	3
Ashley, f, c	6	3	15	4
Givan, c	3	0	6	4
Harden, c	0	0	0	1
Jenkins, c	2	0	4	0
Jonas, g	3	6	12	3
Hough, g	1	0	2	0
Elgin (79)	b.	f.t.	t.p.	f.
Flores, f	1	0	2	4
Ruth, f	1	2	4	2
Nopp, f	8	1	17	3
Stewart, f	0	1	1	0
Haacker, D., f	1	0	2	0
Buckner, c	13	7	33	2
Burton, c	4	0	8	1
Mengling, g	2	0	4	4

Around the World . .

(Continued from Page Two)

Belgrade in 1456 and thus saved Europe from being overrun by the pagans. In memory of the victory, the Pope ordered the tolling of the bells in every Church, and this is what we hear every noon now.

The greatness of Hungary came to an end in 1526, when in Moliacs the Hungarians were defeated. From that date up to 1919, the country was in subjection—first to the Turks, for 150 years, and then to the Hapsburgs. There were many unsuccessful rebellions. The major ones occurred in 1711, under Ferenc II Rakoczy, and in 1848, under Louis Kossuth. After World War I, Hungary regained its independence, but it lost two-thirds of its territory by the Treaty of Trianon.

Joliet Overpowers P. U. C. C.

By Ken Ashley

Friday Night, November 30, P.U.C.C.'s hoopsters were host to Joliet J.C. at Edison gym. We proved a genial host because they beat us 114-48. A combination of poor shooting, poor defense, and lack of teamwork due to a lack of sufficient practice on our part, plus a sharp-shooting Joliet team, led to our downfall. Tuffli of Joliet was the game's high scorer, while P.U.C.C.'s leading scorers were Hosea Givan with 10, and Clyde Rector with 9.

Box Score:

Joliet (114)	b.	f.t.	t.p.	f.
Tuffli, f	15	2	32	2
Sparlin, f	3	2	8	2
Vigliocco, f	4	4	12	4

Intramural Basketball

Students, intramural basketball teams are now being organized. Get your buddies together and register your team with Coach Hayes by December 18. There must be more than 8 men and less than 12 per team. A captains' meeting will be held December 21. League play will start after Christmas vacation on Mon., Wed., Thurs., and Fri. evenings between 7:00-9:00 p.m. An All-Star team will be chosen to play varsity and the winner of that game will play faculty. Good Luck.

Mr. Bowser, with everybody else, is baffled by the bus strike. He would like to have the South Shore station moved still closer—say, to 171st and Woodmar.

Mrs. Gemberling and her husband have moved from Glendale Park to Van Buren St. in Hammond. Senders of Christmas cards, please note!
